

## IML Walking Association

Dear walkers,

2020 was a very disappointing walking season for all of us and unfortunately, it does not look much better for 2021.

The Coronavirus has hit our entire world and – even if vaccination has started in most areas of the globe – we cannot be certain that this situation will come to an end any time soon. Covid-19 has significantly influenced and changed our social behavior and well-being.

Over the last months we have learned how fragile our global society can be and how important it is to show friendship and solidarity with the vulnerable. With this in mind, IML decided to set an example by creating a displayable symbol for togetherness: the **IML solidarity medal**.

The medal can be combined either with country bars (for example when a national walking event has to be cancelled because of extreme weather conditions, natural disasters or for other reasons) or with the internationally available **CORONA bar**.

All walkers wishing to openly express their solidarity through IML can acquire the solidarity medal and attachable CORONA bar. IML membership is not required.

Item	Available for	Cost
